

TEACHING CONTEXT (CLASS COMPOSITION):

Grade 10 Socials class with average class composition with a few I.E.P's.

SUMMARY STATEMENT:

Charlotte did an exceptional job. She was very professional in her approach to working with other staff members and our students. She had a positive tone and provided clear instructions with solid student engagement. The classes responded well to her lessons and she did a very good job of managing the different personalities in the class. Charlotte will only get stronger as she is introduced to more social studies teaching methods. Although she has only completed a handful of lessons, I am very confident that Charlotte will be extremely successful in her full practicum.
